I'm a third-year Computer Science student at Tel Hai College, passionate about software engineering and web development. With all core courses completed, I'm ready to apply my skills to real-world projects and contribute to innovative teams while continuously learning and growing in the tech field.

Education

OCT 2022 — present | B.Sc Software Engineering at Tel-Hai College | GPA : 84.47

Data structures : 100

Operating systems : 92

Introduction to Probability: 100

OOP : 82

Introduction to Image Processing and Analysis: 94

Algorithms : 84

Applied Mathematics and Scientific Computing :99

Projects

Academic Projects

As part of my studies in Computer Science at Tel-Hai College, I worked on several hands-on projects that enhanced my practical development skills:

- **Desktop Application in C# (.NET)**

Developed a feature-rich desktop application using C# and the .NET framework in Visual Studio 2022. Gained experience in UI design, data handling, and working with Windows Forms.

- **Web Application using HTML/CSS/JavaScript/Node.js**

Created a dynamic web project using Visual Studio Code. Worked with modern front-end technologies and practiced clean, responsive web design using API.

- **Hackathon Participant – BeSafe (with QueenB)**

Participated in the BeSafe hackathon as part of the QueenB program. Collaborated on developing a tech-based solution focused on safety. Improved teamwork, creativity, and problem-solving skills in a high-pressure environment.

Technical Skills

Programming Languages: Python, Java, C++, C, C# , SQL.

Web Development: HTML, CSS, JavaScript, React, JSON, Node.js, Express.

Databases: SQLite , MongoDB , Mysql

CI/CD & Tools: GIT, GITHUB.

Volunteer

I volunteer with the QueenB program, teaching 14-year-olds the basics of high-tech and computer science. My role is to introduce key concepts and inspire them, helping build their confidence and spark interest in the tech world.
